

Intelligent Living

SOLUTIONS

Job Description

POSITION TITLE: Engineer

EEO CATEGORY:

REPORTS TO: Director of Operations

FLSA STATUS: Exempt

DEPARTMENT: Operations

POSITION OVERVIEW

At Intelligent Living Solutions, we are revolutionizing automation technology through cutting edge solutions that enhance efficiency and productivity, making life simpler, safer, and more enjoyable for our residential and commercial clients. As we continue to grow throughout the Midwest and beyond, we are seeking a skilled automation programmer to develop, install, and maintain advanced automation systems.

The ideal candidate will have hands-on experience with Loxone, PLC programming, and system maintenance. You will design and implement custom automation solutions for residential and commercial clients, ensuring seamless control of lighting, HVAC, security and multimedia systems. You will play a key role in designing and optimizing automation solutions tailored to our clients' needs.

Daily activities include, designing, programming, and integrating automation systems using Loxone and other control technologies; developing and configuring automation scripts, logic, and user interfaces for smart home and commercial automation projects; Troubleshooting and maintaining existing automation systems, diagnosing and resolving hardware/software issues; collaborating with clients and project teams to develop custom automation solutions that enhance efficiency and functionality; installing automation hardware, sensors, and controllers, ensuring proper system operations. Provide training and support to clients on system usage and troubleshooting procedures; and staying up to date with industry trends and emerging automation technologies to improve solutions and services.

This is a full-time, salaried position. Work is performed Monday through Friday, with some evenings and weekends as needed. Regular travel is required.

Position requires at least 2 years of experience in the following areas:

- Loxone or similar installation and programming - 2 years

POSITION REQUIREMENTS

- Experience with Loxone automation systems - or similar systems
- Proficiency in PLC programming
- Strong understanding of electrical systems, networking, and control protocols
- Experience with smart home technologies and integration of third-party systems
